

Tim Catchim

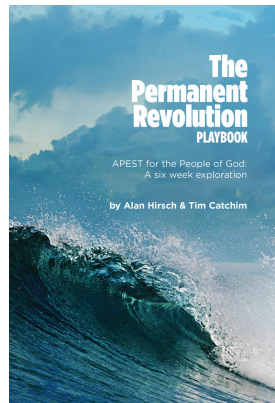

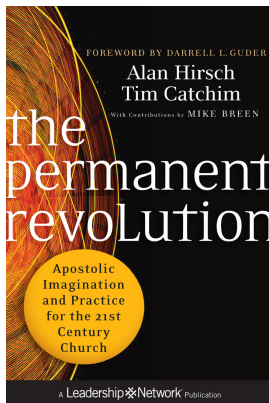

Author Practitioner Coach

Tim grew up largely in the metropolitan region around Washington D.C. His leadership experience includes working with at-risk youth, campus ministry, urban and semi-urban church planting, disciple making, team building, as well as designing and delivering scalable training systems, competency based coaching, and customized consulting services.

Having co-authored *The Permanent Revolution: Apostolic Imagination and Practice for the 21st Century Church* with Alan Hirsch, Tim has been applying APEST in a variety of contexts for over 10 years now.

As a reflective practitioner, he brings a depth of knowledge and wisdom about APEST that few can offer. Here's what others are saying:

"What I appreciate most about Tim's coaching is his ability to actively listen to concerns or descriptions of situations, ask all the right questions, and provide practical tools to support growth and change."

Deb Port United Methodist Church Pastor ♡ Harrisburg, PA

"After a year of coaching with Tim, the biggest difference is the depth of understanding of Jesus and the five-fold gifts. But not just information, it is the practical application in helping others live out APEST inside and outside faith communities."

Greg Murray Una Hill Teaching & Missions Pastor ♡ Melbourne, Australia

CONSULTING STORIES

Some leaders share thier experience with Tim:

"What I most appreciated was the chance to have a safe, substantive, and focused learning relationship with Tim and that he was someone outside of my normal circles/background (this helped me both to feel safe and to benefit from new ideas/information/perspectives). With these characteristics as a starting point, it was a really useful journey for me to dive into texts we looked at and dig deeper into the background as well as look at ways people have interpreted and sought to put things into practice (for better or worse) over the past generations. I regularly experienced the sensation of having gained new insights and being able to see passages in a fresh and new way.

Sy Belahovek Director of Overseas Business Project
📍Central Asia

"After a year of consulting with Tim, I have greater biblical insight and clearer assessment of my APEST profile and that of others I serve with. Tim provided practical tools to help realign our church, to equip people for effective service, and to experience the fullness Christ promised for His Church.

Gary Rucci Lead Pastor at Rivercity Church,
📍Brisbaine, Australia

"What I appreciate most about Tim's consulting is his insights into Scripture and into systems and structures, which help people like me take my spiritual leadership to the next level.

Shaun Grindle Church Movement Field Staff with Cru
📍Joplin, Missouri
